Dear Comber | Grove families,

Support for Victims of Earthquake experienced in Morocco

A powerful earthquake struck the High Atlas region in Morocco on the 8th September 2023. **At least 3,000 people have died** – a grim death toll that is likely to rise in the days ahead.

The earthquake killed people in the provinces and municipalities of al-Haouz, Marrakesh, Ouarzazate, Azilal, Chichaoua and Taroudant.

The earthquake, which was felt as far away as Algeria and Portugal, also shook historic Marrakech, the nearest major city to the epicentre.

Please help us as we raise funds to donate this appeal. Wear your own clothes on Friday, 15th September 2023 and make a donation. Every donation counts!!!
